# FFR G2 14T | LED Lay-In Retrofit

#### Features:

- High performance LED technology
- 90+ CRI standard
- 0-10V dimming drivers standard
- Field replaceable LED boards and drivers
- Frosted diffuser optimized to balance efficiency and aesthetics
- Available in a wide variety of lumen outputs for maximum flexibility
- Quick and easy installation helps save on labor costs
- Advanced controls available

# **Applications:**

Suitable for most commercial and institutional applications

- Office
- Retail
- Classrooms
- Healthcare Facilities

#### Predicted Lifetime:

- L70: 131,000 hrs (calculated)
- L80: 83,000 hrs (calculated)
- L90: 40,000 hrs (reported)
- 85% lumen maintenance @ 60,000 hrs

(based on LM80 and insitu laboratory testing)

#### **Construction:**

- Die-formed heavy-gauge cold rolled steel ballast housing with precision brake formed aluminum LED tray
- Frosted Acrylic Diffuser
- White enamel finish

# Certifications:

• UL 1598 listed for US and Canada, suitable for damp locations

### Warranty:

- 5 year limited system warranty see <u>www.LumenFocus.com</u> for complete warranty terms and conditions
- 10 year warranty option available on specific models

(Not available on all models. Certain conditions apply. Consult factory or sales representative for details.)

# Photometric Data: Relative Luminous Intensity

# Re-board ABILITY

The FFR features field replaceable boards and drivers. This allows you to upgrade to more efficient technology in the future. Or, in the rare event of a failure, you can rapidly replace defective components. Re-boardABILITY helps to ensure you won't get stuck with an obsolete light fixture. Learn more about <u>Re-boardABILITY here.</u>

<u>Click here for a video demonstration of the</u> <u>re-boarding process on a FFR.</u> Note: Exact time varies depending on the model.

# **Controls Summary:**

Control Code	Туре	Capabilities	Communication		
ZSOL	Motion (PIR), Daylight Harvesting	High/Low/Off, High-End Trim	Wired 0-10V, Programmable via IR remote (sold separately) or via dip switches on sensor		
ZES2	Motion (PIR), Daylight Harvesting	High/Low/Off, High-End Trim, Grouping	Wireless Zigbee, Programmable via Android App		
ZES3	Motion (PIR), Daylight Harvesting	High/Low/Off*, High-End Trim*, Grouping*, Scheduling*, Energy Monitor- ing*, LLLC*, BMS Integration*	Wireless Zigbee, Programmable via qualified 3rd party control systems. Note: ZES3 does not provide stand-alone operation based on occupancy or daylight. Status is provided to the network system for centralized control and command.		
ZIFS	Motion (PIR), Daylight Harvesting	High/Low/Off, High-End Trim, Grouping, LLLC (Douglas Lighting Controls-Dialog)*	Wireless Bluetooth Mesh, Programmable via iOS App or Douglas Dialog Software		
ZIFC	Controller, No Sensors	High/Low/Off, High-End Trim, Grouping, LLLC (Douglas Lighting Controls-Dialog)*	Wireless Bluetooth Mesh, Programmable via iOS App or Douglas Dialog Software		
ZENLO	Motion (PIR), Daylight Harvesting	High/Low/Off, High-End Trim, Grouping, Upgradable to Connected (ZE-NLC) or IoT (ZENLI)	Wireless Bluetooth Low Energy Mesh, Programmable via Enlighted Room Controller WS-2- 00-IL (sold separately)		
ZENLC	Motion (PIR), Daylight Harvesting	High/Low/Off, High-End Trim, Grouping, Scheduling*, Energy Monitor- ing*, BMS Integration*, Upgradable to IoT (ZENLI), LLLC (Enlighted IoT)*	Wireless Bluetooth Low Energy Mesh, Programmable via Enlighted IoT Software		
ZENLI	Motion (PIR), Daylight Harvesting	High/Low/Off, High-End Trim, Grouping, Scheduling*, Energy Monitor- ing*, BMS Integration*, LLLC (Enlighted IoT)*, Space - Building Utilization*, Where - Real Time Location Services*	Wireless Bluetooth Low Energy Mesh, Programmable via Enlighted IoT Software		

LLLC = Luminaire Level Lighting Control

\* Additional equipment required. Contact LumenFocus representative for details

### ZSOL option: Leviton Intellect Solo Sensor

The FFR can be equipped with an integrated Leviton Intellect Solo Sensor ("ZSOL" option). This is a 0-10V dimming Passive Infrared (PIR) occupancy and daylight harvesting sensor.

Other features:

- Partial-on
- Partial-off
- 8' to 10' mounting height
- IP20 rated
- Detection angle: 120 degrees

#### FormFocus available with Philips EasySense Sensors

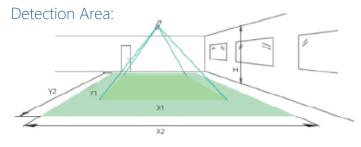

- Simple, cost effective way to add controls to every luminaire in order to maximize energy savings and address code-compliancy strategies
- Occupancy sensing, daylight harvesting, and task tuning in one devise
- Reduces installation time and eliminates the need to wire sensors outside the fixture in the ceiling
- Title 20 compliant
- Enables auto-off/manual-on and auto-off/partial-on application
- Easy field configuration from floor via smartphone with Easysense App
- Factory can pre-set max light levels

#### ZES2 (EasySense Fixture-Mount Sensor SNS200 with Philips SR Xitanium driver)

- Independent per-fixture control: Occupancy, Daylight Harvesting, Task Tuning
- Occupancy Sharing
  - Fixtures within a group can be programmed to remain at prescribed light levels so long as occupancy is detected anywhere in the group
- Scene Setting
- Advanced grouping to Illumra ZBT-S1AWH or ZBT-S2AWH wireless wall switch
  - Single (SIAWH) or Dual (S2AWH) Rocker Self-Powered Light Switch
  - Up to 40 sensors can be grouped to a single switch
  - Functions: On/Off, Dim-Up/Dim-Down, Scene 1, Scene 2
- DLC listed

#### ZES3 (EasySense Fixture-Mount Sensor for Networks SNS300 with Philips SR Xitanium driver)

- Occupancy & daylight sensing in one device
- Designed for applications with centralized lighting control through Zigbee wireless technology
  - Compatible with qualified third-party lighting control systems or building management systems (BMS)
    - Provides a simple solution to actively manage and control energy usage, while remotely adjusting light settings and determining service needs
    - Provides fixture-specific information into networks for centralized control and enables functionality such as energy monitoring, scheduling, and load shedding.
    - **Note:** SNS300 does not provide stand-alone operation based on occupancy or daylight. Status is provided to the network system for centralized control and command.

Height	Minor Movement		Major Movemen	
Н	X1	Y1	X2	Y2
10′	12′	9′	18′	12′

Longer dimension of detection area (X1, X2) is parallel to longer dimension of EasySense

- Minor movement (person moving  $\leq$  3.0' per second)
- Major movement (person moving ≥ 3.0' per second)

© 2022 Signify Holding for all EasySense content and images

www.lumenfocus.com 880 Facet Rd. | Henderson, NC 27537 252-430-6970

• Can be used to comply with IECC, ASHRAE 90.1 and 2019 Title 24, Part 6 dimming, occupancy/vacancy sensing and daylight harvesting requirements.

R) occupancy and daylight harvesting sensor.
 IR remote available for programming sensor from the floor (sold separately)

# Douglas Lighting Controls, Inc.: Cloud-based controls

The FFR can be equipped with the Douglas Bluetooth Intelligent Fixture Sensor (IFS) as well as the Intelligent Fixture Controller.

#### IFS

- Occupancy, vacancy, partial-on and partial-off
- Occupancy timeout adjustable from 5 to 90 minutes
- Primary and secondary daylight harvesting
- Up to 16.4' (5m) mounting height

- Listed for emergency control when used on dedicated emergency power bus
- Same occupancy and daylight controls as the IFS when networked with one or more IFS sensors
- Available with both IFS and IFC:

O-10V dimming with dim-to-off

- Bluetooth beacon for digital ceiling, IoT and location service strategies
  150-foot clear line of sight, 50 feet through standard walls
- May be used with dual-channel, tunable white LED drivers providing auxiliary power and dim-to-off capability
  - Commissioning through Douglas Lighting Controls, Inc. app from Apple app store
    Note: Additional equipment required for IoT capabilities

# CheckLight<sup>®</sup> Energy Management System

Douglas controls can be integrated with the CheckLight<sup>®</sup> Energy Management system. This system can help you uncover energy conversion opportunities, create conservation strategies, analyze lighting load inefficiencies, and make configuration changes from anywhere with Douglas' user-friendly interface. You can get measurements, reports, and control your system from a web-based application.

CheckLight<sup>®</sup> has the capability to look at different facilities within a portfolio and use data benchmarks to compare building performances.

- Find energy conservation opportunities
- Create energy saving strategies
- Analyze load inefficiencies
- Optimize energy management

# **Enlighted**: All-in-one sensors, upgradeable systems

Enlighted's SMART Micro Sensor is an all-in-one unit: task tuning, high-end trimming, daylight harvesting, and occupancy/vacancy detection. Max installation height is 15 feet.

Enlighted sensors come standard with the Enlighted One system (the "ZENLO" option). Enlighted Connected ("ZENLC") offers even more options. The Enlighted IoT ("ZENLI") option allows the full implementation of Enlighted's services. Each system can be fully upgraded to the next tier in the future. So if you start with Enlighted One but want to add energy reporting or building management systems integration in the future, you can.

#### Real-time data analytics

Enlighted's control units compile data in real-time, which can be viewed via the Energy Manager. The Energy Manager is part of the Enlighted Connected and Enlighted IoT configurations.

- Real-time measurements and verification of energy savings
- Space analytics data can be compiled into motion trails and heat maps
- Analyze traffic density and congestion in a space

# LumenF@cus

#### Installation Instructions:

1) Turn off power to luminaire, remove all fluorescent components, dispose of properly.

2) Insert endcaps between ceiling grid and troffer.

3) Slide LED panel between grid and troffer, fasten with provided quarter turns.

4) Connect LED panel with provided disconnect. Insert blank side panel between grid and troffer, fasten with provided quarter turns.

5) Insert lens material into track, turn on power.

# Installation Demo Online:

An online demonstration video can be found on our YouTube channel <u>at this link.</u>
